# Manufacturers Declaration

## Country of Destination

Australia

AWB number: [REDACTED]

Date: 23 May 2025

Invoice no: [REDACTED]

## Country of Origin

China

## Permit

**0010531192** – Commodity 1.1. Nucleic acid amplification (e.g., PCR / LAMP) test kits (Standard)

## Description of Commodity

### SARS-CoV-2 Nucleic Acid Test Card (REF: RM1010202-10):

This kit is used for Nucleic acid amplification and in vitro qualitative detection of the N gene and ORF1ab gene of novel coronavirus SARS-CoV-2 in nasal swab samples from suspected pneumonia cases of SARS-CoV-2 infection, suspected cluster cases, and other persons requiring diagnosis or differential diagnosis of SARS-CoV-2 infection.

## Nature of Packaging

**Boxed Test Kits – Ten (10) tests per box**

## Number of Packages

**One Package**

## Declaration of Commodities

All the commodities in this consignment are:

- Commercially manufactured and packaged
- In new, clean, and secure packaging
- Are Nucleic Acid Amplification (NAA) test kits only
- Contain nucleic acid up to 1000 nucleotides, enzymes, and chemical buffers only
